

Software Composition Analysis

October 16 ▪ Adobe World Headquarters ▪ San Jose, CA

All Times U.S. Pacific Time

09:00 am	Registration Sign-in for In-Person Attendees
09:30	Event Kick-Off and Welcome
09:35	<p>Customer Roundtable</p> <p>A moderated customer discussion on organizing enterprise-wide scanning, covering what it means to scan at scale, key considerations, and the challenges of running such a program.</p> <p>Led by: Venkat Ram Donga - Product Management Director, Reverera</p>
10:20	Break
10:30	<p>Industry Updates from a Partner</p> <p>A review of recent regulatory changes affecting software producers and discussion of new trends in SBOM management and OSPOs. The presentation will also cover evolving customer requirements, including concerns over GenAI code suggestions and increased interest in source code fingerprint analysis, as well as the latest developments in Open Chain, including new specification versions, and a reminder of why it's important to get certified.</p> <p>Russ Eling - Founder, OSS Consultants</p>
11:00	<p>Legal Updates from a Partner</p> <p>An exploration of the latest shifts in open-source licensing, focusing on how several popular projects are moving toward more restrictive licenses in response to SaaS disruption impacting vendor profitability. We'll compare vendor-driven projects, which often use licenses like AGPL and SSPL, with community-led projects that prefer permissive licenses such as Apache and MIT.</p> <p>Leon Schwartz - Principal, GTC Law Group</p>
11:30	Lunch
12:30 pm	<p>SBOM Maturity Refresh</p> <p>A discussion on the importance of SBOMs and the challenges associated with their implementation. The session will highlight the value SBOMs bring to organizations and key stakeholders, share key insights from recent survey data, and provide guidance on collaborating effectively with various departments, including legal, security, finance, and export teams.</p> <p>Juliya Rubin - Principal Customer Success Manager, Reverera Alex Rybak - Sr. Director Product Management, Reverera</p>
01:00	<p>Tips and Tricks on Improving Analysis Productivity</p> <p>A presentation of the strategies and techniques used by Reverera Services to efficiently assess, organize, and operate an analysis project.</p> <p>Prashanth Chandrasekar - Principal Services Consultant, Reverera</p>
01:30	Break
01:40	<p>Digital Customer Success Program</p> <p>A presentation of what's in store for the digital customer success program and its plans to improve your customer experience.</p> <p>Juliya Rubin - Principal Customer Success Manager, Reverera</p>
02:00	<p>Key Demos, SCA Year-End Review, and 2025 Themes</p> <p>A Reverera demonstration showcasing an end-to-end security flow, with vulnerability management, annotation, suppression, and VEX reporting. We'll also cover our updated dependency handling in Code Insight, and review plans for SBOM import support in Code Insight later this year.</p> <p>Reverera Team</p>
04:00	Final Thoughts and Event Wrap-Up
