

FlexNet Code Insight

1. **“Developer”** means the individuals within Licensee’s organization who contribute code to the applications that will be scanned or analyzed by FlexNet Code Insight. For the purpose of certification as set forth in the Agreement, the number of Developers includes all Developers who have contributed code to any scanned or analyzed application at any point during the previous year.
 2. **“Internal Purposes”** means scanning and analyzing applications located within Licensee’s (including Affiliates) own systems.
 3. **“User”** means the individuals who access the FlexNet Code Insight for the purposes of scanning or analyzing applications.
 4. **Limitations.** Licensee shall not use FlexNet Code Insight to Scan or analyze applications of any third party. Scanning or analyzing applications of any third party requires a separate license.
 5. **Node-Locked Licenses.** If Licensee has licensed FlexNet Code Insight on a node-locked basis, Licensee may install and use one instance of FlexNet Code Insight on a single computer either physically installed or on a virtual image on that computer only at Licensee’s site(s) for Licensee’s Internal Purposes only in accordance with the License Level. A node-locked license is limited to use by a single User on a single computer or virtual image; Licensee may not install FlexNet Code Insight on a shared computer. Copying a virtual image for the purposes of using the image either simultaneously or as a replacement on another machine is strictly prohibited.
 6. **Software.** For the purpose of the Agreement, FlexNet Code Insight is considered “Software”.
